

Happy Holidays From FieldSoft

FieldSoft hopes current economic conditions do not make your holiday celebration(s) any less joyous.

New FieldSoft Customers

FieldSoft welcomes Marine Corps Supply Facility Blount Island and the Green-Field, NJ Volunteer Fire Company.

Four McHenry County, IL. fire protection districts (FPD) informally known as the "Quad", purchased a jurisdiction wide AIMSonScene Multi-user software license with Peer-to-Peer client software. The group has rolled out mobile computers to their rigs, are using EV-DO for their wireless network, and may be moving to a new CAD in the foreseeable future. ICS software training for the Quad (consisting of Richmond FPD, Wonder Lake FPD, Spring Grove FPD, and the Aldan Hebron Greenwood FPD) should take place in the next 6 to 8 weeks.

A number of Illinois MABAS (mutual aid box alarms system) Division 10 agencies recently completed AIMSonScene Peer-to-peer software training. MABAS 10 is the second MABAS Division to purchase software licenses.

The software group included Bolingbrook Fire, Western Springs Fire, Pleasantview Fire, and members of Westmont Fire (who run the Division Command Van).

Bolingbrook has been a long time customer. The other two agencies and the MABAS Command Van staff are new.

The license purchases and training means 4 MABAS Division 10 fire agencies on board, and only 14 more Division 10 departments to go.

AIMSonScene Software Releases

The most recent AIMSonScene software release took place at the end of December, 2008. The next release is scheduled for March 31, 2009.

Ohio Department Of Natural Resources

The ODNR had some interesting times as they responded to numerous weather related emergencies in 2008. Responses were so interesting (see below), that ODNR shared photos with KBKI Inc.,

A new type of amphibious vehicle perhaps?

an authorized AIMSonScene vendor based in TX.

FieldSoft Has Moved

FieldSoft has completed the move from Alma School Rd in Chandler, Arizona to its' new offices at 600 W Ray Road, Suite B3, Chandler 85225. Overall square footage is down. The new site is a true office building however, rather than the retail space vacated last month. Best of all, we have a conference/training room that can comfortably seat 10 or more people.

The new space means FieldSoft may offer AIMSonScene training in the metropolitan Chandler area (which includes Phoenix, AZ., a Chandler suburb). FieldSoft will however, continue to offer 1 day training and 3 day Deployment Assistance Programs (DAP) at customer sites as well.

Please note that our postal address of PO Box 1378, Chandler, AZ 85244-1378 remains unchanged
